Using the Latest Technology to Make You Look as Young as You Feel

Dr. Gary M. Gross and the HCP staff have integrated the latest advanced technologies together for you to look as young as you feel. Three technologies that HCP offers are its vein treatment procedures, liposculpture procedures, and Ematrix.

Vein Treatment

- Surface laser or intense pulsed light and sclerotherapy for spider veins or clusters and feeding veins
- Catheter closure procedures for larger feeders
- Procedures are done with local numbing and with either mild sedation or no sedation

Sublative Facial Rejuvenation -

Newest E-matrix and Matrix-IR technology for balanced RF and laser fractionated delivery to deeper dermis of face

- Multi-pixelated energy protects top surface layers and penetrates to address blemishes, red areas, facial veins, wrinkles, sags
- Improved skin brightness, smoothness, texture, elasticity, for all skin types
- Often combined with filler treatments for volume replacement
- Software customized for each individual patient to stimulate collagen and tighten with minimal downtime

Laser Liposculpture - 3rd generation Lipolite and Velashape-2, faster and better results

- Lipolite delivers laser energy via an optical fiber through a tiny incision to the treatment site
- Minimally invasive laser body firming for reshaping face, neck, arm, back, bra line, abdomen, legs buttocks
- Combination liposuction, laser melting, laser tightening at the same time
- Shrinks cellulite fat chambers, reduces dimpling, smooths natural contours
- Tissue and skin tightening and less bruising/swelling during recovery
- Performed while awake with local anesthesia and minimal or no downtime
- Circumferential or spot fat reduction, lift and tighten sagging tissue
